Geltungsbereich / Scope	Allgemeine Hinweise für FEIN Elektrowerkzeuge und zugehörige Akkus

Dieses Dokument fasst allgemeine Sicherheitsinformationen zusammen. Produktspezifische Unterlagen und Kennzeichnungen haben immer Vorrang. / This document summarizes general safety information. Product-specific documentation and markings always take precedence.

DEUTSCH

Wichtiger Hinweis

Diese Zusammenfassung enthält allgemeine, wiederkehrende Sicherheitshinweise aus offiziellen FEIN-Unterlagen. Sie ersetzt weder die Allgemeinen Sicherheitshinweise noch die produktspezifische Betriebsanleitung.

Allgemeine Sicherheit bei Elektrowerkzeugen

- Arbeitsbereich sauber und gut beleuchtet halten. Nicht in explosionsgefährdeter Umgebung mit brennbaren Flüssigkeiten, Gasen oder Stäuben betreiben; Kinder und andere Personen fernhalten.
- Bei netzbetriebenen Werkzeugen passende, unveränderte Stecker verwenden; vor Regen und Nässe schützen; Leitungen von Hitze, Öl, scharfen Kanten und beweglichen Teilen fernhalten.
- Aufmerksam und mit sicherem Stand arbeiten; unbeabsichtigtes Einschalten vermeiden und Einstellwerkzeuge vor dem Einschalten entfernen.
- Geeignete PSA verwenden, insbesondere Augen-, Gehör-, Atem- und Handschutz je nach Anwendung.
- Rotierende Teile nicht berühren; Werkzeug nicht auf Personen oder Tiere richten; nur bestimmungsgemäß und mit von FEIN freigegebenem Zubehör verwenden.

Vor Gebrauch, Werkzeugwechsel und Wartung

- Vor jeder Verwendung Gehäuse, Komponenten, Einsatzwerkzeug und Befestigungen auf Zustand, Schäden und festen Sitz prüfen.
- Vor Arbeiten am Gerät Netzstecker ziehen bzw. Akku entfernen.
- Werkstück sicher fixieren; verdeckte Stromleitungen sowie Gas- und Wasserrohre berücksichtigen.
- Lüftungsöffnungen sauber halten; Wartung und Reparaturen außerhalb zulässiger Anwenderpflege Fachpersonal bzw. autorisiertem FEIN Service überlassen.
- Nur originale bzw. ausdrücklich freigegebene Ersatz- und Zubehöerteile verwenden; abgenutzte Warnaufkleber erneuern.

Staub, Lärm und Schwingungen

- Bei materialabtragenden Arbeiten geeignete Absaugung, PSA und gute Belüftung verwenden.
- Asbesthaltige Materialien nur durch Fachleute bearbeiten; produktspezifische Hinweise zu kritischen Werkstoffen beachten.
- Holz- und Leichtmetallstäube sowie heiße Mischungen aus Schleifstaub und Chemikalien können sich entzünden oder explosionsfähig sein; Funkenflug und Überhitzung vermeiden.
- Geräusch- und Schwingungsexposition hängt von Anwendung, Zubehör und Wartungszustand ab; zusätzliche Schutzmaßnahmen und Expositionsbegrenzung berücksichtigen.

Akku-Sicherheit

- Nur freigegebene Akkus und empfohlene Ladegeräte verwenden; falsche, beschädigte, reparierte oder ungeeignete Akkus können Brand- oder Explosionsgefahr verursachen.
- Akkus nicht zerlegen, öffnen, quetschen, kurzschließen, mechanisch beschädigen oder Feuer/starker Hitze aussetzen; vor Wasser, Feuchtigkeit und Verschmutzung schützen; von Kindern fernhalten.
- Beschädigte oder auffällige Akkus nicht weiterverwenden und nicht selbst warten.
- Bei Akkuflüssigkeit Haut mit reichlich Wasser spülen; bei Augenkontakt mit sauberem Wasser spülen und unverzüglich ärztliche Hilfe suchen.
- Für FEIN 18V AMPShare Li-Ionen-Akkus die jeweiligen Akku-Sicherheitshinweise sowie Temperaturgrenzen beachten.
- Beim Transport von Li-Ionen-Akkus geltende Gefahrgutvorschriften beachten; Drittversand kann besondere Verpackungs- und Kennzeichnungspflichten auslösen.

Lagerung, Transport und Entsorgung

- Elektrowerkzeug sauber und trocken lagern; starke Temperaturschwankungen und Kondensation vermeiden; Akku entfernen, soweit produktspezifisch vorgesehen.

- Ausgemusterte Elektrowerkzeuge, Akkus und Zubehör getrennt sammeln und umweltgerecht verwerten; Akkus nicht im Hausmüll entsorgen und offene Kontakte gegen Kurzschluss sichern.

ENGLISH

Important notice

This summary contains general, recurring safety information from official FEIN documentation. It does not replace the General Safety Instructions or the product-specific instruction manual.

General power tool safety

- Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Before use, tool changes and maintenance

- Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Before working on the tool disconnect the mains plug or remove the battery.
- Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Dust, noise and vibration

- For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Battery safety

- Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Do not continue to use damaged or abnormal batteries and do not service them yourself.
- If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Storage, transport and disposal

- Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.
- Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against short-circuiting.

Avis important

Ce résumé contient des consignes de sécurité générales et récurrentes issues de la documentation officielle FEIN. Il ne remplace ni les « Consignes générales de sécurité » ni la notice d'utilisation spécifique au produit.

Sécurité générale des outils électroportatifs

- Consigne : Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- Consigne : For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Consigne : Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Consigne : Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Consigne : Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Avant utilisation, changement d'outil et entretien

- Consigne : Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Consigne : Before working on the tool disconnect the mains plug or remove the battery.
- Consigne : Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Consigne : Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Consigne : Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Poussières, bruit et vibrations

- Consigne : For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Consigne : Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Consigne : Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Consigne : Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Sécurité des batteries

- Consigne : Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Consigne : Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Consigne : Do not continue to use damaged or abnormal batteries and do not service them yourself.
- Consigne : If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- Consigne : For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Consigne : Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Stockage, transport et élimination

- Consigne : Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.
- Consigne : Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against short-circuiting.

Belangrijke opmerking

Deze samenvatting bevat algemene, terugkerende veiligheidsinformatie uit officiële FEIN-documentatie. Zij vervangt noch de Algemene veiligheidsinstructies noch de productspecifieke gebruiksaanwijzing.

General power tool safety

- Veiligheidsinstructie: Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- Veiligheidsinstructie: For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Veiligheidsinstructie: Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Veiligheidsinstructie: Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Veiligheidsinstructie: Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Before use, tool changes and maintenance

- Veiligheidsinstructie: Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Veiligheidsinstructie: Before working on the tool disconnect the mains plug or remove the battery.
- Veiligheidsinstructie: Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Veiligheidsinstructie: Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Veiligheidsinstructie: Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Dust, noise and vibration

- Veiligheidsinstructie: For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Veiligheidsinstructie: Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Veiligheidsinstructie: Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Veiligheidsinstructie: Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Battery safety

- Veiligheidsinstructie: Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Veiligheidsinstructie: Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Veiligheidsinstructie: Do not continue to use damaged or abnormal batteries and do not service them yourself.
- Veiligheidsinstructie: If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- Veiligheidsinstructie: For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Veiligheidsinstructie: Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Storage, transport and disposal

- Veiligheidsinstructie: Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.
- Veiligheidsinstructie: Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against

short-circuiting.

Avvertenza importante

Questa sintesi contiene informazioni di sicurezza generali e ricorrenti tratte dalla documentazione ufficiale FEIN. Non sostituisce né le Istruzioni generali di sicurezza né il manuale specifico del prodotto.

General power tool safety

- Indicazione: Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- Indicazione: For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Indicazione: Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Indicazione: Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Indicazione: Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Before use, tool changes and maintenance

- Indicazione: Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Indicazione: Before working on the tool disconnect the mains plug or remove the battery.
- Indicazione: Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Indicazione: Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Indicazione: Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Dust, noise and vibration

- Indicazione: For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Indicazione: Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Indicazione: Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Indicazione: Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Battery safety

- Indicazione: Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Indicazione: Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Indicazione: Do not continue to use damaged or abnormal batteries and do not service them yourself.
- Indicazione: If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- Indicazione: For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Indicazione: Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Storage, transport and disposal

- Indicazione: Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.
- Indicazione: Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against short-circuiting.

Viktig information

Denna sammanfattning innehåller allmän, återkommande säkerhetsinformation från officiell FEIN-dokumentation. Den ersätter varken de allmänna säkerhetsanvisningarna eller den produktspecifika bruksanvisningen.

General power tool safety

- Säkerhetsanvisning: Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- Säkerhetsanvisning: For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Säkerhetsanvisning: Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Säkerhetsanvisning: Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Säkerhetsanvisning: Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Before use, tool changes and maintenance

- Säkerhetsanvisning: Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Säkerhetsanvisning: Before working on the tool disconnect the mains plug or remove the battery.
- Säkerhetsanvisning: Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Säkerhetsanvisning: Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Säkerhetsanvisning: Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Dust, noise and vibration

- Säkerhetsanvisning: For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Säkerhetsanvisning: Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Säkerhetsanvisning: Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Säkerhetsanvisning: Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Battery safety

- Säkerhetsanvisning: Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Säkerhetsanvisning: Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Säkerhetsanvisning: Do not continue to use damaged or abnormal batteries and do not service them yourself.
- Säkerhetsanvisning: If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- Säkerhetsanvisning: For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Säkerhetsanvisning: Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Storage, transport and disposal

- Säkerhetsanvisning: Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.

- Säkerhetsanvisning: Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against short-circuiting.

Ważna informacja

Niniejsze podsumowanie zawiera ogólne, powtarzające się informacje dotyczące bezpieczeństwa z oficjalnej dokumentacji FEIN. Nie zastępuje ono Ogólnych instrukcji bezpieczeństwa ani instrukcji obsługi właściwej dla produktu.

General power tool safety

- Wskazówka: Keep the work area clean and well lit. Do not operate in explosive atmospheres with flammable liquids, gases or dust; keep children and other persons away.
- Wskazówka: For mains-powered tools use suitable unmodified plugs; protect from rain and moisture; keep cords away from heat, oil, sharp edges and moving parts.
- Wskazówka: Stay alert and maintain secure footing; prevent unintentional starting and remove adjustment tools before switching on.
- Wskazówka: Use suitable PPE, especially eye, hearing, respiratory and hand protection as appropriate.
- Wskazówka: Do not touch rotating parts; never direct the tool at persons or animals; use only as intended and with accessories approved by FEIN.

Before use, tool changes and maintenance

- Wskazówka: Before each use check housing, components, application tool and fasteners for condition, damage and secure seating.
- Wskazówka: Before working on the tool disconnect the mains plug or remove the battery.
- Wskazówka: Secure the workpiece; check for concealed electrical wiring, gas and water pipes.
- Wskazówka: Keep ventilation openings clean; maintenance and repairs beyond permitted user care should be left to qualified personnel or authorized FEIN service.
- Wskazówka: Use only original or expressly approved spare parts and accessories; replace worn warning labels.

Dust, noise and vibration

- Wskazówka: For material-removing operations use suitable dust extraction, PPE and adequate ventilation.
- Wskazówka: Work on asbestos-containing materials must be left to specialists; observe product-specific warnings for critical materials.
- Wskazówka: Wood and light-metal dust and hot mixtures of sanding dust and chemicals may ignite or explode; avoid sparks and overheating.
- Wskazówka: Noise and vibration exposure depends on application, accessory and maintenance condition; consider additional protective measures and limiting exposure.

Battery safety

- Wskazówka: Use only approved batteries and recommended chargers; incorrect, damaged, repaired or unsuitable batteries may create fire or explosion hazards.
- Wskazówka: Do not disassemble, open, crush, short-circuit, mechanically damage or expose batteries to fire/excessive heat; protect from water, moisture and contamination; keep away from children.
- Wskazówka: Do not continue to use damaged or abnormal batteries and do not service them yourself.
- Wskazówka: If battery fluid contacts skin rinse with plenty of water; for eye contact rinse with clean water and seek medical attention immediately.
- Wskazówka: For FEIN 18V AMPShare lithium-ion batteries observe the applicable battery safety instructions and temperature limits.
- Wskazówka: Observe dangerous-goods rules when transporting lithium-ion batteries; third-party shipment may require special packaging and labelling.

Storage, transport and disposal

- Wskazówka: Store power tools clean and dry; avoid major temperature fluctuations and condensation; remove battery where required by product instructions.
- Wskazówka: Collect worn-out power tools, batteries and accessories separately for environmentally responsible recycling; do not dispose of batteries in household waste and protect exposed terminals against short-circuiting.
